

RASIK NIZAM M.I

SENIOR FRONTEND ENGINEER (REACT.JS | REACT NATIVE)

Coimbatore, India • +91 9585248912 • rasikbinibrahim@gmail.com

[LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 5+ years of experience building high-performance, real-time enterprise applications across manufacturing, fintech, and healthcare domains.

Specialized in:

- Real-time dashboards & data-intensive UI systems
- Performance optimization (30–60% improvements)
- Scalable component architecture & design systems

Built systems handling real-time industrial data across 20+ production lines, improving operational efficiency by 40%+.

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Petrus Technologies Pvt. Ltd. | July 2023 – Present

- Architected a real-time OEE (Overall Equipment Effectiveness) dashboard across 20+ production lines, enabling live tracking of Performance, Availability, and Quality metrics
- Built high-performance dashboards for real-time industrial data visualization, improving operational visibility across plant teams
- Reduced API calls by 50% using TanStack Query (caching, background refetching, optimistic updates)
- Migrated REST APIs → GraphQL (Apollo Client), reducing payload size by 60% and improving UI responsiveness
- Improved initial load performance by 35% using Next.js SSR/CSR hybrid rendering
- Developed reusable component library (15+ modules), including KPI cards, charts, alerts, and reporting systems, reducing development effort by 30%
- Built dynamic visualization systems, reducing manual reporting effort by 40% per shift
- Ensured 99.9% uptime for dashboards used by 100+ daily active users
- Optimized rendering performance for large datasets using memoization, lazy loading, and efficient state management
- Delivered 6 production releases with 95% on-time delivery, following structured Git workflows and PR reviews

Application Developer

OREOPS Framework Pvt. Ltd. | September 2022 – June 2023

- Built a schema-driven dynamic form engine, reducing development effort by 50%
- Developed reusable UI component libraries across enterprise SaaS applications
- Designed scalable frontend architecture for low-code/no-code platforms

Associate Developer

KGiSL | March 2022 – August 2023

- Developed secure UI modules for mobile banking applications
- Implemented OAuth 2.0 & JWT-based authentication flows
- Improved performance and usability of critical financial workflows

Programmer Analyst
Latlon Technologies Pvt. Ltd. | October 2020 – March 2022

- Built React Native healthcare applications, including consultation and medical record systems
- Integrated REST APIs for real-time data exchange
- Improved application performance by ~20%

KEY PROJECTS

Control Tower Dashboard

- Real-time multi-plant monitoring system
- Reduced operational effort by 40%
- Improved plant-level decision visibility

Dynamic Form Builder

- Schema-driven workflow system
- Reduced development effort by 50%
- Enabled configurable enterprise modules

TECHNICAL SKILLS

Frontend: React.js, Next.js, React Native, TypeScript
Backend: Node.js (Express.js), REST API Development
State Management: Redux Toolkit, TanStack Query, Context API
APIs: REST APIs, GraphQL (Apollo Client)
Performance: Code Splitting, Lazy Loading, Memoization, Web Vitals
Real-Time: WebSocket, MQTT
Cloud: AWS (S3, Lambda basics)
Tools: Vite.js, Git, CI/CD
Security: OAuth 2.0, JWT, RBAC
Testing: Jest, React Testing Library

KEY ACHIEVEMENTS

- Improved application performance by 30–60%
- Reduced API load by 50% and payload size by 60%
- Reduced operational effort by 40%
- Reduced development effort by 50% through reusable systems

EDUCATION

Bachelor of Engineering – Electronics & Instrumentation
Nehru Institute of Technology | 2016

 **Rising Star Award (2026) – Petrus Technologies**
